Joseph was the most helpful T.A. I've had this semester. His review sessions were extremely helpful in preparing for exams.

None

He is great.

Joseph did very well as a TA and helped explain problems.

Joseph was a very helpful TA and I believe for the most part always prepared us for the quizzes and exams. He was always very eager at 8:25, and got us awake and moving. He would make our quizzes sometimes more challenging than needed to be, or harder than the examples that we have done in class.

All of the responses just have A, B, C, D or E but do not indicate what those are for. I am choosing A for all and using that to answer that the Graduate assistant was excellent in everything

Joseph was a great TA and he was always upbeat and kind and would help you if you didn't understand a topic. I loved the way he ran the discussions as it was very beneficial.

A very well-instructor, very care about students, prepared well.

Very knowledgeable but challenging TA.

I feel as though he was one of the worst TAs I have ever had at this university. He would write the quizzes and try to prepare us for them in his discussion, then he would proceed to put questions that were completely different on the quiz. I do not think that he prepared my class at all for tests and quizzes and should not move forward with being a TA for classes in the future. He is partially the reason why many students in the class have barely passing or failing grades.

Joseph was outstanding. He was super organized and presented the material in a very helpful way.

N/A

very smart

N/A

He does a lot of chalkboard questions where everyone goes up to the board to work on questions he asks. It would be helpful if he went around to help EVERYONE. Instead, he goes around mainly to people he sees are going through the questions fast and focuses on them. The rest of the students who are struggling are LEFT struggling. It makes me feel a bit more hopeless and stupid.

Great TA, super helpful and nice. Vey approachable, understanding and wants to see students succeed.

None

Good TA, however, usually a lot harder than the instructor, which was useful, but hurt my grade more than it was effective.

Very Enthusiastic. Always engaged. Goes beyond whats expected. Always available for help.

Good enough

Good at math

I really enjoyed this discussion class. Joseph was a great teacher and I found him to be more helpful than my professor. He was always very prepared for class, and I really liked his method of having us use the chalkboard to go over the problems after he gave a little review of what we learned (frequently adding in helpful tips on how to do that type of problem). He was friendly and seemed to genuinely care about his students, giving advice rather than just in terms of being successful in MATH221. I really have no complaints for the discussion group led by Joseph and think he did a wonderful job.

Joseph is an amazing TA and I loved going to discussion class. He made everything very clear and easy. Oral review sessions were so helpful.
