Joseph was awesome! One of the best TAs ever and always willing to help!

Hard to evaluate given recent events

I think discussion was very beneficial but sometimes I felt that him and the professor did not communicate effectively.

Helped me a lot with this course

The Graduate Assistance was very knowledgeable and knew how to explain the subject really well.

Love doing discussion each week

no

none

The teacher is very good at explaining the concepts and making sure everyone understands.

Both the course and graduate instructors were very clear in their explanations of mathematical and Calculus topics. What I liked the best was that both would do example problems and show steps to solve similar ones.

The best TA I have ever had.

The TA was really helpful in clarifying difficult subjects, answering questions, and grading quickly and fairly.

My TA, Joseph N., was very helpful and always willing to help during office hours or even one on one. I relied on my discussion period especially once transitioning online, which was a very helpful resource.

None.

Best TA I think I will ever have in my life. He is so passionate and genuinely cares about the success of all students. Absolutely made this class amazing. He is so easy to talk to and is extremely kind and a great teacher.

Joe is the man. Give him a raise and promotion. I cant even tell you how helpful he is. I hated math until Joe and have seen him turn a failing student into a passing one.

N/a

Outstanding teacher; always prepared and thorough in explanations.

The graduate assistant was very helpful and communication was much more personal then compared to the professor as class size was much smaller. I feel discussion was more helpful than lecture.
